

THE HOME DIFFERENCE

This is a time that deserves to be honored, approached thoughtfully, and guided respectfully and compassionately.

A home euthanasia offers long term peace.

- The entire family has a chance to participate, in the most comfortable setting possible, saying good-bye on your own terms. We accompany your family on your journey of grief from the best place possible.
- Your pet deserves comfort. A clinic or hospital environment can cause unnecessary fear, confusion, anxiety, or stress for your pet. In their final moments, we help you give them the gift of peace.
- A rushed euthanasia decision can lead to lasting self-doubt or regret. We'll help create a peaceful environment by staying tuned in to your needs with patience, compassionate communication, and caring support.

From the first phone call or email, we're here for you:
