

# THE HARDEST QUESTIONS

## Is my pet suffering?

We discuss what “quality of life” means for your pet, teach you to “listen to what your pet is telling you” and guide you as you monitor changes in her or his body and spirit. Together, we’ll assess your pet frequently to keep her life meaningful and maintain comfort, hygiene, and safety.

## Will I know what to do?

We provide the information you need to recognize symptoms, anticipate progression of disease and maintain realistic expectations. We’ll discuss many options so you can make the best decisions for you and your pet.

## How am I going to get through this?

Making end of life decisions for a loved one is both a burden and a privilege. You’re not alone with your struggle. We support you as you face the uncertainty of end of life care, and we’re available 24/7 to accompany you on your journey.

## Will my vet be involved in my pet’s care?

We are honored to be an extension of the care your pet has been receiving and work as a team with other providers to best serve your pet’s needs.

## How can I honor & preserve the memories?

Together we will find the most appropriate and meaningful way to honor the love and life you have shared, take care of the physical remains and preserve your pet’s life story.

## CONTACT US

### FOR ESTABLISHED PATIENTS ONLY

Our team is available 24/7 for in-home care and support.

- Amir Shanan, DVM, CHPV
- Brooke Bartell, DVM
- Irene Petroski, CVT

We Are Here To Help

## CARE

**We do all we can to provide...**

- Comfort and a peaceful experience for your pet until the last breath
- Information you need about the anticipated course of the disease
- Tools for recognizing signs of your pet's discomfort
- Multiple medical care options and guidance choosing the right option for you and your pet
- Multiple comfort-oriented treatment modalities
- Help making difficult decisions
- A dignified, and supported death
- Home euthanasia if needed

**...And, peace of mind**

**Our animal hospice** nurses, veterinarians, and support coordinators are ready to join your team.
